Profile

1.1

Coding

The Developer Survey is meant to explore insights for those that code. A majority of respondents (76%) are professional developers with an additional 15% that are aspirational or adjacent.

 Are you someone who writes code? Please select one of the following options that best describes you today.

Country

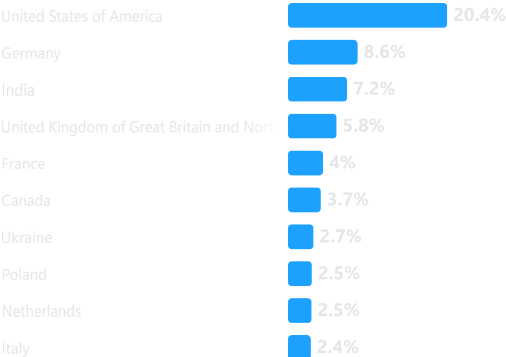

Developers Technology AI Work Stack Overflow Methodology

Ukraine and France swapped places this year compared to last, placing France in the top 5 list of responding countries.

? Where do you live?
